

REMARKS/ARGUMENTS

The Applicant has carefully considered this application in connection with the previous Examiner's Action and the Appeal Board decision. The Applicant respectfully requests reconsideration of this application in view of the foregoing amendment..

The Applicant originally submitted Claims 1-25 in the application. The Applicant has amended Claims 1, 11, 13 and 23. Support for the amendment can be found in the original specification in, for example, paragraphs 12, 18, 28, 31, 34 and 37. Claims 1-25 are currently pending in the application.

I. Rejection of Claims 1-25 under 35 U.S.C. §103

The Examiner rejected Claims 1-6, and 10-25 under 35 U.S.C. §103(a) as being unpatentable over a patent application filed by Xiang Zhang, U.S. Patent Application Publication No. 20010029263A1, in view of a patent application filed by Hiltunen, U.S. Patent Application Publication No. 20040042604A1. The Examiner also rejected Claims 7-9 under 35 U.S.C. §103(a) as being unpatentable over Zhang, Hiltunen and in further view of a patent application filed by Tommi Raivisto, *et al.*, U.S. Patent Application Publication No. 20040075675A1. The Applicants respectfully disagree in view of the present amendment.

The cited combination does not provide a *prima facie* case of obviousness of amended independent Claims 1 and 13. More specifically, the cited combination was not cited to address collecting data **from** at least one of individual components and procedures embedded within the mobile communication apparatus. Zhang, for example was relied on to disclose a maintenance task

module 310 that receives errors transmitted from different modules (*see* paragraph 33) in contrast to collecting data from as Claims 1 and 13 presently recite. As such, in view of the present amendment, the cited rejection does not provide a *prima facie* case of obviousness of independent Claims 1 and 13 and Claims dependent thereon. The Applicant therefore respectfully requests the Examiner to withdraw the rejection of these Claims and allow issuance thereof.

Additionally, regarding amended Claim 1, the cited rejection does not address assigning the data to the at least one of the individual components and procedures.

The Applicant also notes the amendment to dependent Claims 11 and 23.

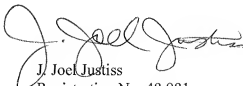

II. Conclusion

In view of the foregoing amendment and remarks, the Applicant now sees all of the Claims currently pending in this application to be in condition for allowance and therefore earnestly solicits a Notice of Allowance for Claims 1-25.

The Applicant requests the Examiner to telephone the undersigned attorney of record at (972) 480-8800 if such would further or expedite the prosecution of the present application. The Commissioner is hereby authorized to charge any fees, credits or overpayments to Deposit Account 08-2395.

Respectfully submitted,
